

“DONSATI-INITIATIVE 2025”

INTERNATIONAL SYMPOSIUM ON TECHNOLOGY AND INNOVATION FOR REFORESTATION, PROTECTION, AND UTILIZATION OF DEGRADED FORESTS

Purpose

The symposium aims to foster a shared vision for advancing scientific research and collaboration in the forestry and wood industry sectors. The event will focus on the following key themes:

- **Assessment of Scientific Progress:** Evaluating the current state of research in forestry and wood industries, and identifying future research priorities
- **Technological Innovation:** Exploring efficient and sustainable technologies for the utilization of deadwood and underutilized wood resources
- **Restoration and Protection of Degraded Forests:** Developing strategies for ecological restoration and sustainable protection of degraded forests, which comprise a significant portion of Mongolia's forest areas, within the framework of the nationwide “Billion Trees” campaign

Target participants

Researchers from academic and research institutions, university professors (both domestic and international), and representatives from government and non-governmental organizations, international development projects, as well as private sector stakeholders involved in forestry and the wood industry.

Organizers

- Training and Research Institute of Forestry and Wood Industry, Mongolian University of Science and Technology (MUST)
- School of Food, Light Industry, and Design, MUST

Date and Venue

Date: 09:00 - 17:00 (UTC +8), Thursday, **September 11, 2025**

Venue: Conference room, 12th floor, Building No.8, MUST, Ulaanbaatar, Mongolia

Program structure

Session 1: Keynote Presentations

Renowned experts will provide insights into global and regional trends in forest technology and innovation.

Session 2: Thematic Sessions

FORESTRY TECHNOLOGY AND INNOVATION:

- Tree seed orchard management
- Tree breeding
- Reforestation and afforestation
- Forest protection and resource management
- Forest fire management

WOOD INDUSTRY TECHNOLOGY AND INNOVATION

- Wood science and material properties
- Timber harvesting technology
- Industrial processing and innovation in wood-based product manufacturing

Submission Guidelines

Extended Abstract Submission Deadline: **August 22, 2025**

 **Zoom meeting ID: 387 544 0421**

Passcode: must1234
